

# Business Partners Donor Benefits

South Shore Conservatory's (SSC) Business Partners recognize that the arts mean business. Business Partners support the Conservatory and its mission of providing access to arts education through our belief that the arts are essential to human development, and that arts education builds a dynamic workforce by encouraging innovation, creative problem solving, discipline and team work. The arts fuel the economy and vitalize communities – arts organizations create jobs, attract tourists, and support local businesses.

Beyond a full calendar of public performances throughout the year, SSC is committed to community outreach. We offer tuition assistance that serves over 20% of our students. Our Community Partnerships program has successfully launched ImagineArts – an arts literacy education program, serving local public schools in need of music education. The Creative Arts Therapy department serves adults and children with special needs, including, but not limited to, those on the autism spectrum, those with developmental disabilities, learning disabilities, physical challenges, and those living with Alzheimer's. These programs are only a few of the important SSC initiatives throughout the year.
